## SUMMARY

Full Stack Web Developer with a keen eye for presentations and styles of websites. Effective at combining creativity and problem solving to develop user-friendly applications. Excellent working with a team or independently. Known for strong wit and attention to detail no matter the complexity of the project.

## TECHNICAL SKILLS

JSX, AJAX, ES6,

**Languages:** HTML5, CSS3, JavaScript

**Applications:** PureCSS, Bootstrap, GIT, GitHub, React, React.js, Express, Node.js, jQuery, MySQL, MongoDB, Mongoose, Handlebars, APIs, Restful API, Heroku, Terminal, React Hooks, JSON, Sequelize

## PROJECTS

**Fortress of Fandom** | <https://github.com/gardukman/fortress-of-fandom> | <https://immense-mesa-76865.herokuapp.com/about>

- A website created for the Fortress of Fandom podcast. On this website fans of the podcast can discuss the show, listen to past shows, and see the merchandise for the podcast (with a helpful link to buy the merchandise).
- I did the front-end design. I did the fonts, the footer, the menu, and the podcast layout (for which I used React-Bootstrap).
- HTML5, CSS3, JavaScript, React-Bootstrap, Apollo, Bootstrap, GraphQL, React, Heroku

**Holiday Planner** | <https://github.com/akaser23/holiday-planner> | <https://desolate-inlet-16467.herokuapp.com/login>

- This website helps plan for the busy holiday season. You are first asked to sign-up and create a login. After that you can create to-do lists, and search for helpful recipes for the holiday season.
- I did much of the back-end development. I also was involved with the styling and layout of the website.
- JQuery, Express.js, MySQL, Sequelize, Handlebars.js, Bootstrap

## EXPERIENCE

**Manager**  
**Abominable Mowmen**

2015 - 2018  
Layton and Ogden, UT

This was a lawn mowing business my cousin and I started. Every week we would mow and manage 20 - 25 lawns. We would have to communicate with our customers and talk to them about the maintenance of their lawns. We worked hard to complete our lawns every week. We also had to manage our finances because we had to maintain our equipment and also pay ourselves.

**Missionary**

2018 - 2020

**Church of Jesus Christ of Latter-day Saints**

Salta, Argentina

As a missionary I would talk to new people everyday. I would do many service projects to help the people of Salta. I also had to keep to a strict schedule which taught me to be punctual. I can also understand, speak, and read Spanish.

**Preloader**

2020 – Present

**UPS**

Ogden, UT

Positioned lifting devices under, over, or around loaded pallets, skids, and boxes, and secure material or products for transport to designated areas. Loaded and unloaded materials by hand or with equipment to help team meet work demands. Read and attached appropriate labels and tags to products and packages for identification purposes.

**EDUCATION**

**Full Stack Web Development Certificate - University of Utah | Salt Lake City, UT | 2021**

A 24-week intensive boot camp program focused on gaining technical programming and market-driven skills.
